Folks,

Many thanks for the timely response to recent problems with my roof.

The team you sent was knowledgeable, courteous and effective. The ladies in your office are quite helpful and, may I say, are obviously proud of working for your organization.

I learned a great deal about the history of the company and its excellent growth from Tony. Both she and Laurie were efficient and helpful with payment information.

I am sure the decorative shingles on my roof will require continued regular inspection and service. Rest assured, your company will be the first one I call!

Sincerely,
